TransCanada Telephone System

MAKING THE MOST OF telephone service

Today's telephone equipment is engineered to give you a marvellously high standard of service — but a little help on your part can make your telephone service work even better for you.

CORRECT DIALING SAVES TIME AND FRUSTRATION

How you dial is important. It can ensure that your call goes through quickly and easily, and save you the annoyance of re-dialing.

- **Before dialing, make sure you have the correct number in front of you. Look it up — and jot it down.**
- **Lift the receiver and listen for the dial tone. When you hear it, dial ALL SEVEN DIGITS of the local number you wish to reach (For Direct Distance Dialing, see page 3).**
- **Please don't delay between dialing each digit. But do make sure you turn the dial all the way around to the finger stop.**
- **Let the dial roll back of its own accord before you dial the next digit.**
