AGT, part of  Trans-Canada Telephone System

With a little help from our friends

THE TELEPHONE PIONEERS OF AMERICA . . .

... blind children can now play baseball, retarded children relate to playtime friends, and crippled children exercise their tiny limbs in obvious delight.

Fellowship, Loyalty and Service is the motto of the Telephone Pioneers. This is the largest voluntary social industrial organization in the world. Members are either active or retired employees who have been in the telephone industry for 21 years or more.

It was the Pioneers who conceived, designed, and brought into being a soft-ball for blind people. A little bigger than a standard softball, it emits a buzzing sound which can be easily heard anywhere on the ball field.

It was the Telephone Pioneers in Lethbridge, Alberta, who came up with "Snoopy" the talking dog. Snoopy helps with speech therapy for retarded children. Experts in the field have found that children who will not communicate with adults, or even with other children, can sometimes be drawn out of their shells in a remarkable way by a talking toy.

Still another Pioneer accomplishment was the Small Fry Telephone System. Its value in muscle training and speech therapy has proven invaluable. This discovery that began at the Red Cross Hospital in Calgary, had defined for the Pioneers their role: adapting the skills and hardware of the telephone business to help handicapped people.

Through the Pioneers, the principles of Fellowship, Loyalty, and Service are clearly identified with the industry and the people who work for it. In this respect, the Telephone Pioneers render a valuable public relations service to the industry.
