

stop the "hot ones"

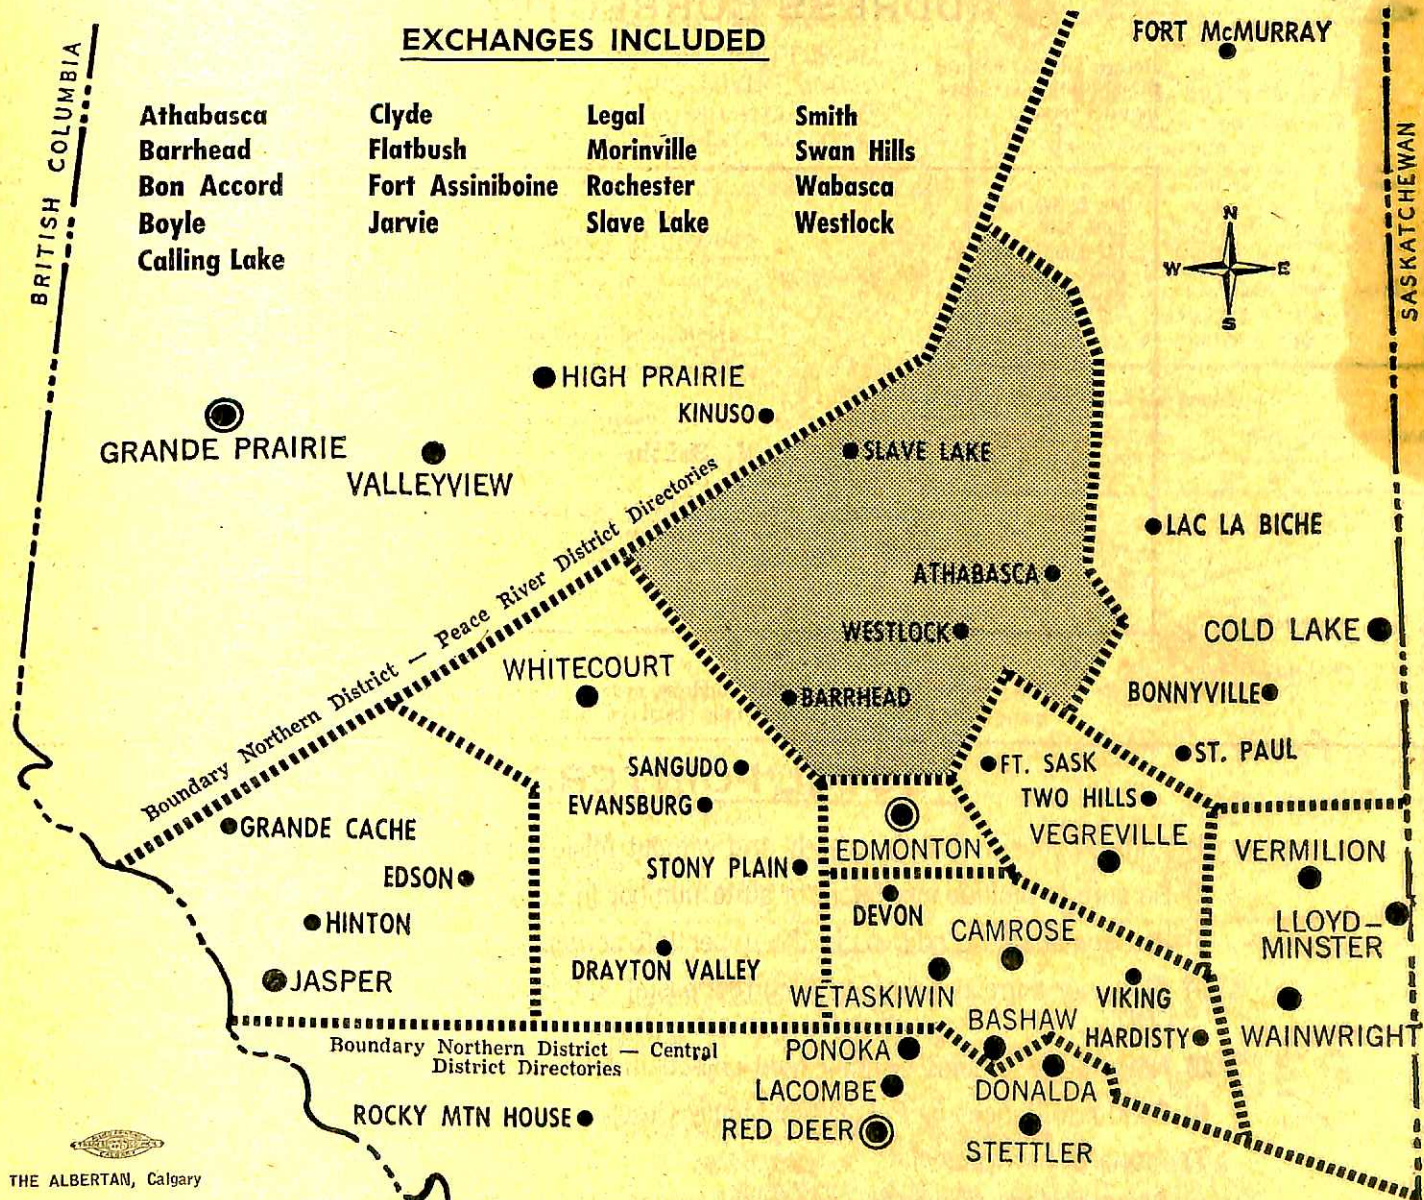

Hot prospects, that is. And what could be hotter than the prospects who turn to the Yellow Pages as their buying guide. These are people who are ready to buy a product or service and are just looking for someone to buy it from. Be there with your sales message when they're looking and stop 'em while they're hot.

INFORMATION CONCERNING THE NEW POSTAL CODE SYSTEM

The Postal CODE is composed of both letters and numbers, in the form of ANA NAN, where "A" represents a letter of the alphabet, and "N" a number.

There is a space separating the first three characters, called Area Designator, from the last three, the Local Designator.

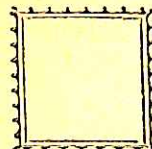

Once you have been given your Postal CODE, it is a permanent part of your address. Your Postal CODE will change only if you move.

prompt return in case of
