SILVER CLEANING

To clean your silver. Mix one-half
cup of salt and three-fourths cup
of soapflakes with sufficient cold
water to cover the silverware laid
in an aluminum pan. Bring to a
boil, then wash silver in hot soapy
water. CAUTION: Do not use on
filigreed silver. Solution may re-
move the oxidation in the intricate
designs and it will take some time
for them to darken again.

CARPET HINT

Grease and soot stains on a carpet may be removed by sprinkling with salt and rubbing vigorously. Several applications may be necessary. Old stains may be lightened considerably by rubbing with a salt and water paste. To restore freshness, wipe with a cloth or sponge which has been dipped in a strong salt solution and wrung out to remove excess moisture.

SILVER CLEANING

To clean your silver. Mix one-half
cup of salt and three-fourths cup
of soapflakes with sufficient cold
water to cover the silverware laid
in an aluminum pan. Bring to a
boil, then wash silver in hot soapy
water. CAUTION: Do not use on
filigreed silver. Solution may re-
move the oxidation in the intricate
designs and it will take some time
for them to darken again.
