MARBLE STAINS

Most stains on marble are removed best with the application of a poultice. To make a poultice, soak a piece of white blotting paper, white napkin, white cleansing tissue, or commercial whiting in one of the following solutions: for organic stains, use ammonia or hydrogen peroxide in hair bleach strength; for oily stains, an amyl acetate or acetone solvent.

A HEAVY LOAD

Shoppers each year carry some 1,400 pounds of groceries home for each person in the family. The load, however, is about 100 pounds lighter than it was in the 1940's — partly because of increases in food processing, partly because of changes in consumer tastes.

CUSHION NEEDED

A rug cushion is most important on rough or uneven floors, door sills with their hill-and-dale profile and on edges of stair treads which receive the brunt of stairway traffic.
