Recyclable

# WORKING TOGETHER TO RECOVER THE FUTURE

Armed with an ongoing commitment to improve the environment, AGT Directory Limited has successfully established a province-wide directory recycling program. The key to recycling is developing partnerships: with the communities we serve, with other local businesses, with the paper and directory publishing industries and with recyclers. By working together we can make a difference in the environment for our generation and for generations to come.

## REDUCE

AGT uses newsprint that is more than 20% lighter than regular newsprint. Implementation of waste reduction measures in the printing process has resulted in efficient use of newsprint rolls.

## RECYCLE

AGT is now entering the second year of its Directory Recycling Program. Through co-operation from the business community and the general public, we have expanded our program. This year, in order to provide ease of access for our customers, we have increased the number of outlets available thus ensuring the cradle to cradle process.

## REUSE

The covers of the AGT Directories contain 21% recycled fibers. We continue to explore new markets for our post consumer directories in an attempt to keep them out of our landfill sites. At present they are 100% recycled through a local market where they are used in the manufacture of building products such as fiberboard, felt paper and shingle felt.

**AGT's commitment to Quality extends to:**

**our customers,  
our communities,  
our environment.**

 **AGT**
