GOING TO MOVE?

Don't forget the house you're
leaving behind.

Here are some helpful hints.

1. See that all utilities have been disconnected or shut off (gas, electric, telephone, etc.)
2. Notify the milkman, paper boy or others who have been delivering to you regularly.
3. Notify the Post Office of your change of address.
4. Notify your insurance companies and secure records of transfer from school, church, bank, etc.
5. When you're in your new location have your change of address noted on your driver's license and automobile registration certificate.

Telephone cords and water don't mix. A wet cord can put your telephone out of order. So please keep your telephone cord away from sinks, valves, steam and other places where water might get on it.

WASHABLE

Hot water and the type of detergent used in laundering woven woolen fabrics are not the causes of shrinkage of the material. The temperature of the water affects the amount of soil removed, however. Water at 120 degrees F. with a detergent will do a much better cleaning job than at 70 degrees.
