

WHETHER YOU BUILD A LITTLE

OR BUILD A LOT . . . PLAN AHEAD

Office building, housing development, or home, make sure you're allowing for future telephone requirements. The time to contact your AGT Architects, Engineers & Builders' Consulting Service is before you turn the sod. They'll help you plan for future growth — everything from cable ducts to telephone equipment rooms, from the type of communications service to the number of phones your growing family will need. Call collect for this free service: Calgary 261-3311.

SCRATCHED WOODWORK

One way to repair deeply scratched woodwork is by filling the scratches with a mixture of fine sawdust and spar varnish. After this filling has hardened completely, smooth it down with fine sandpaper.

CARE OF IRON

The bottom sole plate of an old iron can be renewed to a glistening, glasslike finish if you'll rub it with some slightly dampened salt and a crumpled piece of paper. This treatment not only smooths scratches, but removes corrosion and starch from the bottom of the iron.

SILVER CLEANER

To clean your silver. Mix one-half cup of salt and three-fourths cup of soapflakes with sufficient cold water to cover the silverware laid in an aluminum pan. Bring to a boil, then wash the silver in hot soapy water. CAUTION: Do not use on filigreed silver. Solution may remove the oxidation in the intricate designs and it will take some time for them to darken again.
