**DON'T PAY MORE ...
SEAL-MASTER PROTECTS
YOUR INVESTMENT AGAINST ...**

Resists Gas, Oil and Salt Damage

A coal tar base material gives superior protection, as compared to other sealants, against the damaging effects of gas, oil, jet fuels and normal road chemicals.

Stops Weather Seepage

Sealing asphalt prevents water seepage into the porous asphalt structure, stopping water damage caused by rain, snow, frost, freezing and thawing.

Resists Oxidation

The rays of the sun dry out the asphalt surface, accelerating raveling and erosion, and this oxidation is materially reduced with Seal-Master.

Beautifies Pavement

Attractive slate black appearance restores original color to asphalt and dries to an even-textured finish.
