NEED SOME SERVICE?

When the job calls for expert service, you can find just the people to do it by looking in the YELLOW PAGES. It's the easy, fast way to find anything you need - services, stores or products.

Calling 9-1-1

Each year, in Canada, over three million calls are made to emergency services by cell phone Samaritans. When calling 9-1-1 in an emergency situation, here are some tips to keep in mind:

1. Advise the operator you are speaking on a cell phone.
2. Give the operator your 10-digit cell phone number, along with your full name.
3. Provide your exact location. If you don't know the exact location of the incident, try to mention landmarks or highway signs in the area.
4. Stay on the line until the operator says it is ok to hang up.
5. After you've hung up, leave your cell phone on in case the operator needs to call you back.

Remember, all long distance calls made within Alberta now require the entry of the area code. Just dial 1 + area code + the number for quick connection.

The AltaVista Canada search engine indexes 50% - 90% more Canadian web sites than any other search engine.

Your telephone will become one of your star sales representatives if you will extend your sales territory by advertising in the TELUS Directory.
