INFORMATION CONCERNING THE NEW POSTAL CODE SYSTEM

The Postal CODE is composed of both letters and numbers, in the form of ANA NAN, where "A" represents a letter of the alphabet, and "N" a number.

There is a space separating the first three characters, called Area Designator, from the last three, the Local Designator.

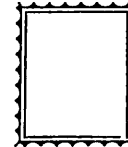

Once you have been given your Postal CODE, it is a permanent part of your address. Your Postal CODE will change only if you move.

ADDRESS CORRECTLY

Return address ensures prompt return in case of non-delivery.

Proper prepayment prevents delay in delivery.

To clean your silver. Mix one-half cup of salt and three-fourths cup of soapflakes with sufficient cold water to cover the silverware laid in an aluminum pan. Bring to a boil, then wash silver in hot soapy water. CAUTION: Do not use on filigreed silver. Solution may remove the oxidation in the intricate designs and it will take some time for them to darken again.
