MORE INSTANT COFFEE USED
 Canadians are drinking less coffee, or
 at least using fewer beans, than in the
 late 1940's. Part of the drop is due to
 introduction of instant coffee during
 the 1950's. Instant products now
 make up nearly one-fifth of total cof-
 fee consumption.

MARBLE STAINS

Most stains on marble are removed best with the application of a poultice. To make a poultice, soak a piece of white blotting paper, white napkin, white cleansing tissue, or commercial whitening in one of the following solutions: for organic stains, use ammonia or hydrogen peroxide in hair bleach strength; for oily stains, an amyl acetate or acetone solvent.

Grease and soot stains on a carpet may be removed by sprinkling with salt and rubbing vigorously. Several applications may be necessary. Old stains may be lightened considerably by rubbing with a salt and water paste. To restore freshness, wipe with a cloth or sponge which has been dipped in strong salt solution and wrung out to remove excess moisture.
