Telephone calls used to be a scream but today, a normal voice will do. The difference is improved transmission-better ways to get your voice from here to there. Simply talk in a normal tone of voice into the receiver and your words will go a long way.

When you call someone, give them time to reach the telephone. You know how you feel when you just miss a call, so wait a few seconds longer when you ring. You never know, they may just be reaching for the phone when you hang up.
