Have the right number
when you call. It's natural
to trust to memory but
when memory plays tricks
with a telephone number,
you're delayed. When you
are not sure of a number
won't you look it up in the
telephone directory?

Yes, a few pennies a day will
keep an extension phone in your
home.

4 GOOD REASONS FOR HANDLING COMPLAINTS BY LONG DISTANCE

You can talk over matters at once
promptness often prevents loss of a
customer.

You can build closer relations with
customers.

You can use tact in delicate situa-
tions. And because men talk more
freely than they write, you can fre-
quently trace the real reason for the
complaint and prevent similar com-
plaints in the future.

It's easier to understand
and jot down numbers too,
if they are spoken in
sequence with pauses
between groups of numerals.
For instance, in reading
aloud the telephone
number of our business'
office, we would say, "Two
two four (pause) six two,
six one."

When you place
out-of-town calls
which require
Operator assistance,
your call will go through
faster if you give her
the Area Code (if needed)
as well as the
out-of-town number.

Telephone calls used to be a scream
but today, a normal voice
will do. The difference is improved
transmission-better way to get your
voice from here to there. Simply
talk in a normal tone of voice into
the receiver and your words will go a
long way.
