4 GOOD REASONS FOR HANDLING COMPLAINTS BY LONG DISTANCE

You can talk over matters at once. Promptness often prevents loss of a customer.

You can build closer relations with customers.

You can use tact in delicate situations. And because men talk more freely than they write, you can frequently trace the real reason for the complaint and prevent similar complaints in the future.

**4 GOOD REASONS FOR HANDLING COMPLAINTS BY LONG DISTANCE**

You can talk over matters at once. Promptness often prevents loss of a customer.

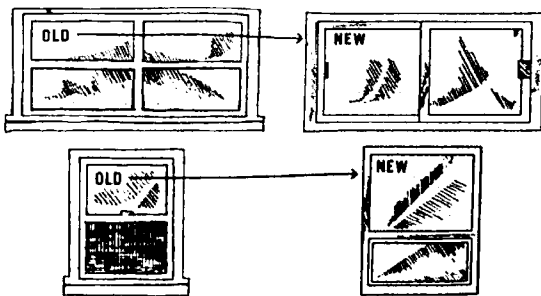

You can build closer relations with customers.

You can use tact in delicate situations. And because men talk more freely than they write, you can frequently trace the real reason for the complaint and prevent similar complaints in the future.

**LIKE TO SPEED?**

A suggestion for chronic speeders:  
"Each time you get behind the steer-  
ing wheel, imagine you are on the way  
to a dental appointment."

**CALL BY NUMBER**  
... it's quicker

Calls go through more quickly  
when you can give the Long  
Distance Operator the tele-  
phone number you are calling.

When in doubt about a telephone  
number, please look in the  
telephone directory first.

That helps you, helps others, and  
helps telephone people to do a  
better job for you.

**DANGER  
BELOW!**

**Call before  
you dig.**

**2 WORKING DAYS NOTICE**

You have deadlines to meet and delays are costly. That's why it's important to call AGT two working days before you dig. AGT needs the lead time to locate and mark cables

Avoid expensive downtime. As soon as you know where your next site is located, phone us!

And please remember to phone the other utilities and pipeline companies as well.
