Don't forget to plan for concealed telephone conduit and convenient locations for telephone outlets when you build your new home. These built-in telephone facilities add real value to a home yet their cost is very small if they are installed during construction.

TELUS™

New Alberta Area Code

Alberta has a second area code **780**, effective January 25, 1999. Look in the front of the TELUS White Pages under the **New Alberta Area Codes Page** for the communities that fall under the new area code. The southern part of the province retains area code **403**. Advertisers in area code 403 should show their area code in all their advertising into the telephone books of the 780 territories.
