## New Alberta Area Code

Alberta has a second area code **780**, effective January 25, 1999. Look in the front of the TELUS White Pages under the **New Alberta Area Codes Page** for the communities that fall under the new area code. The southern part of the province retains area code **403**. Advertisers in area code 403 should show their area code in all their advertising into the telephone books of the 780 territories.

Don't forget to plan for concealed telephone conduit and convenient locations for telephone outlets when you build your new home. These built-in telephone facilities add real value to a home yet their cost is very small if they are installed during construction.
