This Boy Knows DO YOU?

He has had **The Book of Knowledge** in his home for a year, and he can explain to you interestingly and correctly about all the familiar things which he sees around him. He has made "a long start in the race for knowledge."

His teacher will tell you that when she wants a quick and intelligent answer from her class, this boy always answers first.

The Home is the greatest school in the world, and **The Book of Knowledge** is the best equipment for the home.

It is the simplest system of universal knowledge. It develops the mind of a child as naturally as the sunshine develops the flower. Don't you want your child to have the supreme educational advantage?

A PAYING INVESTMENT

THE EDUCATION OF YOUR CHILD, to become a 100% useful citizen is an absolute necessity to-day. A hundred years ago a horse and wagon was all there was to the transportation system. To-day there is a vast system of railways and waterways which cover the world, and the electric current enables people from the uttermost parts of the earth to speak to each other quickly and easily.

THE CHILD OF YESTERDAY needed little more than the three R's in order to have a fairly successful life. To-day, he must have all the equipment you can give him.

WHAT IS YOUR CHILD'S CHANCE to become successful? If uneducated he has one chance out of 150,000; with a common school education, 4 chances; with a high school education, 37 chances; with a college education, 300 chances; **WITH THE BOOK OF KNOWLEDGE IN THE HOME, EVERY CHANCE**. It is not a luxury, it is an absolute necessity. It is an investment in your child's future which will pay dividends as long as he lives.

Are You Looking Ahead?

The hope of the future lies in the education of the child of to-day. Canada is indeed "The Land of Promise," and the children of our country will be heirs of the greatest opportunities any nation ever possessed. In the development of industries, agriculture and finance this Continent is destined in a few years to lead the world. There is no limit to the opportunities which will be afforded to the child of to-day, if only he is ready and prepared to grasp them. But his education must be practical; it must be an education which the school room alone cannot provide.

The Answer to the Universal Demand for a Practical Working Knowledge of the World is
