Seventeen Years in Practice — Ten Years in Calgary

You can't be
100 per cent.
efficient if
your sight is
not clear and
easy.

Be good to
your eyes
now, if you
want them to
serve you well
in the future.

Section of consulting rooms and lens grinding laboratories.

Good Glasses Cost but a Few Dollars, Your Sight is Priceless

(OVER)

Among the things right at the top, which make life really worth living we must place the faculty of Comfortable and Clear Vision

Both are doing their eyes harm by continuing to strain them under adverse conditions.

Eyestrain is the root of many nervous, mental and physical troubles.

YOUR DOCTOR KNOWS

Eyestrain with clear vision is the most common and dangerous form. Scientifically fitted glasses remove the strain.

OUR AIM IS THREE FOLD:

1st. To measure the optical state of the eye with scientific exactness and painstaking care.

2nd. After the formula is written to fashion the best glasses that skilled workmen and modern instruments can produce.

3rd. To pay special attention to the way your glasses will look. They should look as though they were made for you. This is an art in itself.

SIR WILLIAM CROOKES GLASS

Crookes Glass is a kind made from a special formula which took Sir William Crookes three years to attain. Lenses ground from it filter out the irritating element from the light, but look like ordinary lenses. We grind them in our laboratory.

WE MAKE KRYPTOK BI-FOCAL LENSES

For the kind of eye that needs a different correction for far and near vision, these two-sight lenses are excellent.

They show no seam and the vision is clear both far and near.

We ground the first Kryptok lenses ever made in Canada, thirteen years ago.
