# Vibrapac Concrete Masonry Units

*Offer These Advantages . . .*

## FIRE SAFETY . . .

Tests show that Concrete Masonry walls will stand hours of terrific heat with slight, if any, damage.

## LOW COST . . .

Concrete Masonry units are reasonable in price, fast and easy to lay, resulting in lower building costs.

## LOW INSURANCE . . .

Concrete does not burn. Insurance rates are lower on buildings of Concrete Masonry units.

## ARCHITECTURAL BEAUTY . . .

Concrete Masonry units are a versatile building material of lasting beauty adaptable to any style of architecture.

## STORM SAFETY . . .

Where hurricanes, tornadoes and earthquakes occur, buildings of Concrete Masonry construction prove to be the best protection against damage.

## TERMITE PROOF . . .

Termites can't touch Concrete Masonry units. They exist and thrive on cellulose. There is no cellulose in concrete.

## LIFELONG DURABILITY . . .

Concrete does not deteriorate. It grows stronger with time. Concrete Masonry walls will keep their appearance and fine condition for generations.

## SANITARY . . .

The solid, tightly fitted construction of Concrete Masonry units leaves no dirt catching crannies, allows no sifting of dust through cracks.

## RODENT RESISTENT

The "tight" construction possible with Concrete Masonry units effectively keeps rodents and vermin out. They can't gnaw through concrete.

## SELF-INSULATED

Concrete Masonry units of "hollow molded design" have natural insulating qualities and even more so when cellular aggregates are used in their manufacture.
