 NATUROPATHS
 • • •

The hippocratic physician saw nature as the healer of disease. The Latins spoke of Vis Medicatrix Naturae—a remedial force or impulse. The Germans called it "Natur Heiling," the

self-recuperative power of the bodily system, independent of medicine. It has been described also as the capability of living tissue, animal or vegetable, to remedy or remove disease, or to repair itself under the healing power of nature.

United in man with the dynamics of the mind, this matchless force constitutes the basis of naturopathic therapy.

To enlist it intelligently in the fight against disease is the whole art of non-medical healing.
