NATUROPATHS

The hippocratic physician saw nature
as the healer of disease. The Latins
spoke of Vis Medicatrix Naturae—a
remedial force or impulse. The Ger-
mans called it "Natur Heiling," the

self-recuperative power of the bodily system, independent of medicine.
It has been described also as the capability of living tissue, animal or
vegetable, to remedy or remove disease, or to repair itself under the healing
power of nature.

United in man with the dynamics of the mind, this matchless force con-
stitutes the basis of naturopathic therapy.

To enlist it intelligently in the fight against disease is the whole art of
non-medical healing.
