**SILVER CLEANING**

To clean your silver. Mix one-half cup of salt and three-fourths cup of soapflakes with sufficient cold water to cover the silverware laid in an aluminum pan. Bring to a boil, then wash silver in hot soapy water. CAUTION: Do not use on filigreed silver. Solution may remove the oxidation in the intricate designs and it will take some time for them to darken again.

## PREVENT COLORING

Potatoes turn green when they  
are exposed to too much light  
during storage, says a publication  
of the Alberta Potato Com-  
mission. It advises that potatoes  
should be stored in a dark, cool  
place.
