Don't Dig Up Trouble . . .

When underground telephone cable is accidentally dug up or cut by power shovels, trenching or earth boring machines, bulldozers, pipe-pushers, or even by picks, bars or shovels—telephone, radio and television service may be disrupted for the whole neighborhood. That's why we ask—before you dig call **TELEPHONE REPAIR SERVICE**. We'll quickly locate and mark the location of the cable for you.

. . . Call Before You Dig!

BACK COVER STORY

The Southern Alberta Institute of Technology spent the first year of its Fifty Golden Years in Education in temporary quarters with five students and seven instructors. The Institute now occupies 500,000 square feet of floor space on a campus of 65 acres and serves 8,000 students each year with a staff of 205 day instructors, 125 evening instructors, and 70 clerical and technician employees. By 1970, the Institute will occupy 1,100,000 square feet of floor space and will serve increasing numbers of students with a growing staff. The Southern Alberta Institute of Technology continues to uphold the motto: Progress, Precision, Perseverance.
