TO GLUE FURNITURE

In gluing a loose furniture joint,
remember that glue doesn't provide
strength in filling an open
space, so first put a strip of thin
cotton cloth over the piece that
fits into the mortise. Then do the
gluing, tie the joint firmly together
and let it set for 24 hours.

EXPLOSION IN OVEN?

If you burn the inside of the oven with an exploded potato or something, soak a cloth in ammonia and let it stay on the burned places an hour or so, after which you can scrape the spots clean without harming the enamel.

KEEP LIGHT FROM MILK

Keep light from milk to prevent
loss of riboflavin, its most important
vitamin element. If you don't
meet the milkman, leave out a
covered, insulated box for bottles
of milk. Remember that light hurts
milk more than heat does in a
short time.
