STAINED CHINA CLEANER

If china and earthenware become stained or discoloured, use salt moistened with water to rub them clean. Stained vases and bottles respond to a cleansing solution of salt and vinegar. Let stand for a few hours, shake vigorously and rinse with clean water.

SUDS HINT

It is pretty messy when a washing machine bubbles over, so keep a box of salt in the laundry room to sprinkle on suds that threaten to overflow.

KNOW YOUR TEA?
 A tea taster may be able to identify as many as 1,500 different teas. By examining a dry leaf, he can tell where the tea was grown, sometimes even the estate it came from, what time of year it was plucked, its probable taste and cost.

NICER GRAVY

Add a tablespoon of sugar to the water when basting beef roasts. The brown gravy will have a rich flavor. Also one-half teaspoon salt added to the flour and water mixture for the gravy will prevent lumps.

MARBLE STAINS

Most stains on marble are removed best with the application of a poultice. To make a poultice, soak a piece of white blotting paper, white napkin, white cleansing tissue, or commercial whiting in one of the following solutions: for organic stains, use ammonia or hydrogen peroxide in hair bleach strength; for oily stains, an amyl acetate or acetone solvent.

FURNITURE STAIN REMOVER

If you have a piece of heat-stained furniture, apply a thin paste of salt and salad oil. Let stand for an hour, then remove. Unless the stain has really penetrated the grain of the wood, it will respond to this treatment.

Two friendly telephone
habits ... quick to answer
when your telephone
rings; SLOW to hang up
when you call someone
who does not immediately
respond. When calling
others, remember that the
called person may be al-
most there ... so wait a
few seconds longer.

In these busy days when saving time is so important, more and more telephone users are following the thoughtful way of answering the telephone: "Harry Smith speaking." Such an introduction establishes identity, saves time and makes a good impression.
