CORNBREAD TIP

To keep cornbread from sticking to baking pan, melt shortening in the pan and spread over bottom and sides of the pan. Set pan in refrigerator to firm up again. Pour cornbread to bake. The cornbread when baked can be removed easily and will not stick to the pan.

MOST VALUABLE

The most valuable part of the potato-protein and mineral matter is directly under the skin, so to cut thick parings is to throw away good food. It is really better to cook potatoes in their skins.

SAVE ON FOIL

Use aluminum foil to line a small baking pan for oven-baked chicken. Saves on washing up and economical too when the same foil is used to wrap the baked chicken for storage in the refrigerator. Use in the same way for baking fish.

MOTH PROTECTION

For added storage protection for your blankets, after laundering, add a cup of mothballs to the rinse water. The mothballs dissolve in the warm water and evenly saturate the blankets.

You can list other members of your household in the telephone book. It will help their friends find them easily. These additional listings are "call insurance" — and they cost very little.

SILVER CLEANING

To clean your silver. Mix one-half cup of salt and three-fourths cup of soapflakes with sufficient cold water to cover the silverware laid in an aluminum pan. Bring to a boil, then wash silver in hot soapy water. CAUTION: Do not use on plated silver. Solution may remove the oxidation in the intricate designs and it will take some time for them to darken again.
