**SILVER CLEANING**  
To clean your silver. Mix one-half cup of salt and three-fourths cup of soapflakes with sufficient cold water to cover the silverware laid in an aluminum pan. Bring to a boil, then wash silver in hot soapy water. CAUTION: Do not use on filigreed silver. Solution may remove the oxidation in the intricate designs and it will take some time for them to darken again.

**How?**

How can a company  
 put a permanent salesman  
 in just about every  
 Canadian home and  
 business?

By placing an ad in the Yellow Pages. Wherever there's a phone, there's a Yellow Pages book. Whenever prospects need a particular product or service, they usually go to the Yellow Pages. If your message is there, your chances for increasing business are multiplied, because nine times out of ten, when people go to the Yellow Pages, they take action!

## KNOW YOUR TEA?

A tea taster may be able to identify as many as 1,500 different teas. By examining a dry leaf, he can tell where the tea was grown, sometimes even the estate it came from, what time of year it was plucked, its probable taste and cost.

**A HEAVY LOAD**

Shoppers each year carry some 1,400 pounds of groceries home for each person in the family. The load, however, is about 100 pounds lighter than it was in the 1940's — partly because of increases in food processing, partly because of changes in consumer tastes.
