EASE YOUR EYES
 Seamstresses should take a few
 minutes off each half hour for the
 sake of their eyes. Close work over
 a long period of time can put a
 strain on eyes and one way to
 lessen the fatigue is to glance off
 into the distance for a moment
 every now and then.

PAINTER'S TIP

Professional painters say the correct way to hold a brush is to grasp it comfortably near the handle base. Don't bear down on the brush. Just exert enough pressure to make the bristles flex slightly toward the tip.

FLAT BACON

Does your bacon curl up and shrink in the pan? Try this when frying bacon. Fry in regular frying pan but place bottom of another pan directly over the bacon itself — then put it over a low flame. Result — nice flat pieces of bacon.

SILVER CLEANING

To clean your silver. Mix one-half cup of salt and three-fourths cup of soap flakes with sufficient cold water to cover the silverware laid in an aluminum pan. Bring to a boil, then wash silver in hot soapy water. CAUTION! Do not use on filigreed silver. Solution may remove the oxidation in the intricate designs and it will take some time for them to darken again.
