

INFORMATION CONCERNING THE NEW POSTAL CODE SYSTEM

The Postal CODE is composed of both letters and numbers, in the form of ANA NAN, where "A" represents a letter of the alphabet, and "N" a number.

There is a space separating the first three characters, called Area Designator, from the last three, the Local Designator.

Once you have been given your Postal CODE, it is a permanent part of your address. Your Postal CODE will change only if you move.

MORE INSTANT COFFEE USED
Canadians are drinking less coffee,
or at least using fewer beans, than
in the late 1940's. Part of the drop
is due to introduction of instant
coffee during the 1950's. Instant
products now make up nearly one-
fifth of total coffee consumption.

PREVENT STICKING

To prevent food from sticking to an electric skillet, wash as usual, then scour with a mixture of soda and salt. Use this treatment several times. Never heat the skillet any hotter than the suggested temp.
