

INFORMATION CONCERNING THE NEW POSTAL CODE SYSTEM

The Postal CODE is composed of both letters and numbers, in the form of ANA NAN, where "A" represents a letter of the alphabet, and "N" a number.

There is a space separating the first three characters, called Area Designator, from the last three, the Local Designator.

Once you have been given your Postal CODE, it is a permanent part of your address. Your Postal CODE will change only if you move.

Return address ensures
prompt return in case of

financial systems and procedures, income
tax, auditing, business investigations,
estate planning, management consulting
and financial counselling.

Today's chartered accountant must

Behind on orders? Let the handy Yellow Pages introduce the suppliers you need. It's fast, it's convenient. Wise buyers say there's nothing like the Yellow Pages of your telephone book for getting in touch with almost everyone around who sells things, fixes things, does things. Try them once . . . you'll use them often.

DANGER?

Charcoal fires produce carbon monoxide. In case of rain while doing outdoor cooking, do not drag the charcoal cooker inside a closed garage or porch. The biggest enemy of carbon monoxide is fresh air.
