People who are ready to buy turn first to the Yellow Pages. If you have something to offer, here's the place to tell about it. The "Yellow Pages" places your name, address and telephone number before the buyer at the very moment he wants your product or service. Call the business office for information.

When you call someone, give them time to reach the telephone. You know how you feel when you just miss a call, so wait a few seconds longer when you ring. You never know, they may just be reaching for the phone when you hang up.
