People who are ready to buy turn first to the Yellow Pages. If you have something to sell or a service to offer, here's the place to tell about it. The "Yellow Pages" places your name, address and telephone number before the buyer at the very moment he wants your product or service. Call the business office for information.

When you call someone, give them time to reach the telephone. You know how you feel when you just miss a call, so wait a few seconds longer when you ring. You never know, they may just be reaching for the phone when you hang up.

Two friendly telephone
habits . . . quick to answer
when your telephone
rings; slow to hang up
when you call someone
who does not immediately
respond. When calling
others, remember that the
called person may be
almost there . . . so wait a
few seconds longer.

Telephone calls used to be a scream but today, a normal voice will do. The difference is improved transmission- better ways to get your voice from here to there. Simply talk in a normal tone of voice into the receiver and your words will go a long way.
