Here's how you may be sure of getting your party more often when you dial:

1. Look up your number in the latest directory.
2. Listen for the steady hummm of the dial tone.
3. Keep your eye on the dial.
4. Wait a minute before you decide your party isn't home.

Telephone calls used to be a scream but today, a normal voice will do. The difference is improved transmission—better ways to get your voice from here to there. Simply talk in a normal tone of voice into the receiver and your words will go a long way.

Behind on orders? Let
handy YELLOW PAGES
introduce the suppliers
you need. It's fast convenient.
Wise buyers say
there's nothing like the
YELLOW PAGES of your
telephone book for getting
in touch with almost every-
one around who sells
things, fixes things, does
things. Try the YELLOW
PAGES once . . . you'll use
them often.

Here's how you may be sure of getting your party more often when you dial:

1. Look up your number in the latest directory.
2. Listen for the steady hummm of the dial tone.
3. Keep your eye on the dial.
4. Wait a minute before you decide your party isn't home.

Telephone cords and water  
 don't mix. A wet cord can put  
 your telephone out of order.  
 So please keep your telephone  
 cord away from sinks, valves,  
 steam and other places where  
 water might get on it.

Have the right number when you call. It's natural to trust to memory but when memory plays tricks with a telephone number, you're delayed. When you are not sure of a number won't you look it up in the telephone directory?

Telephone cords and water  
don't mix. A wet cord can put  
your telephone out of order.  
So please keep your telephone  
cord away from sinks, valves,  
steam and other places where  
water might get on it.
