**4 GOOD REASONS FOR
HANDLING COMPLAINTS
BY LONG DISTANCE**

You can talk over matters at once.
 Promptness often prevents loss of a customer.

You can build closer relations with customers.

You can use tact in delicate situations. And because men talk more freely than they write, you can frequently trace the real reason for the complaint and prevent similar complaints in the future.

UTENSIL TIP

Nonstick kitchen utensils, especially bakeware, should be oiled before the first use to condition the surface. One method is to wipe the surface with a paper towel soaked in salad oil.

Keep watching the dial . . .
and you'll dial accurately.
Remember to pull the
finger all the way to the
stop . . . let the dial return
at its own speed. Speeding
up or slowing down the
dial's return may interfere
with perfect operation of
the equipment for you.
