Keep watching the dial . . .
and you'll dial accurately.
Remember to pull the
finger all the way to the
stop . . . let the dial return
at its own speed. Speeding
up or slowing down the
dial's return may interfere
with perfect operation of
the equipment for you.

4 GOOD REASONS FOR HANDLING COMPLAINTS BY LONG DISTANCE
You can talk over matters at once. Promptness often prevents loss of a customer.
You can build closer relations with customers.
You can use tact in delicate situations. And because men talk more freely than they write, you can frequently trace the real reason for the complaint and prevent similar complaints in the future.

Don't forget to plan for concealed telephone conduit and convenient locations for telephone outlets when you build your new home. These built-in telephone facilities add real value to a home yet their cost is very small if they are installed during construction.
