Don't forget to plan for concealed telephone conduit and convenient locations for telephone outlets when you build your new home. These built-in telephone facilities add real value to a home yet their cost is very small if they are installed during construction.

It's easier to understand  
and jot down numbers too,  
if they are spoken in  
sequence with pauses  
between groups of numerals.  
For instance, in reading  
around the telephone  
number of our business  
office, we would say, "Two  
two four (pause) six two,  
six one."

Here's how you may be sure of getting your party more often when you dial:

1. Look up your number in the latest directory.
2. Listen for the steady hummm of the dial tone.
3. Keep your eye on the dial.
4. Wait a minute before you decide your party isn't home.
