It's easier to understand  
and jot down numbers too,  
if they are spoken in  
sequence with pauses  
between groups of numerals.  
For instance, in reading  
aloud the telephone  
number of our business  
office, we would say, "Two  
two four (pause) six two,  
six one."

Telephone calls used to be a scream  
but today, a normal voice  
will do. The difference is improved  
transmission—better ways to get you  
voice from here to there. Simply  
talk in a normal tone of voice into  
the receiver and your words will go  
long way.

4 GOOD REASONS FOR

HANDLING COMPLAINTS

BY LONG DISTANCE

You can talk over matters at once.  
Promptness often prevents loss of a  
customer.

You can build closer relations with  
customers.

You can use tact in delicate situa-  
tions. And because men talk more  
freely than they write, you can fre-  
quently trace the real reason for the  
complaint and prevent similar com-  
plaints in the future.

Keep watching the dial . . .  
and you'll dial accurately.

Remember to pull the  
finger all the way to the  
stop . . . let the dial return  
at its own speed. Speeding  
up or slowing down the  
dial's return may interfere  
with perfect operation of  
the equipment for you.

Telephone service is a friendly service. The people who operate and maintain it take a genuine satisfaction in serving you pleasantly and well. People who use the telephone a great deal find that friendliness is an instinctive habit. The telephone helps folks to know each other better.

Telephone calls used to be a scream but today, a normal voice will do. The difference is improved transmission—better ways to get your voice from here to there. Simply talk in a normal tone of voice into the receiver and your words will go a long way.

Keep watching the dial . . .  
and you'll dial accurately.  
Remember to pull the  
finger all the way to the  
stop . . . let the dial return  
at its own speed. Speeding  
up or slowing down the  
dial's return may interfere  
with perfect operation of  
the equipment for you.
