**SILVER CLEANING**

To clean your silver. Mix one-half  
cup of salt and three-fourths cup  
of soapflakes with sufficient cold  
water to cover the silverware laid  
in an aluminum pan. Bring to a  
boil, then wash silver in hot soapy  
water. CAUTION: Do not use on  
filigreed silver. Solution may re-  
move the oxidation in the intricate  
designs and it will take some time  
for them to darken again.

### SILVER CLEANING

To clean your silver. Mix one-half cup of salt and three-fourths cup of soapflakes with sufficient cold water to cover the silverware laid in an aluminum pan. Bring to a boil, then wash silver in hot soapy water. CAUTION: Do not use on filigreed silver. Solution may remove the oxidation in the intricate designs and it will take some time for them to darken again.
