Don't forget to plan for concealed telephone conduit and convenient locations for telephone outlets when you build your new home. These built-in telephone facilities add real value to a home yet their cost is very small if they are installed during construction.

Don't forget to plan for concealed telephone conduit and convenient locations for telephone outlets when you build your new home. These built-in telephone facilities add real value to a home yet their cost is very small if they are installed during construction.

Don't forget to plan for concealed telephone conduit and convenient locations for telephone outlets when you build your new home. These built-in telephone facilities add real value to a home yet their cost is very small if they are installed during construction.
