Extra Listing Service. See Rule 20, Department Rules and Regulations.

Additional copies of this issue, 75 cents; outside point \$1.00, mailed free.

City of Edmonton Telephone System

Rules and Regulations

1. **Telephone Instruments and Connecting Wires** are furnished to subscribers for use in accordance with rules prescribed by the Department from time to time and are to be used only by the subscriber, his agent, or employees when engaged upon his business. The equipment must not be used for receiving or delivering any communication in respect of which a consideration has been or is to be paid by any other party except as permitted by the rules of the Department.

2. **Unlimited Telephone Service** will not be furnished where the equipment is accessible to the general public. Where the traffic originated by general public on any telephone exceeds that of the subscriber, the Department shall have the right to change the location of the equipment without notice.

3. Subscribers are not allowed to transfer the Telephone Number assigned to them, their service, or their contract to any other party unless arrangements are made in advance with the Department.

4. **The Wires and Instruments** over which service is furnished, together with the telephone numbers remain at all times the property of the Department, and subscribers must not allow any mechanical or electrical apparatus to be connected with said wires and instruments without the consent of the Department.

5. **The Initial Installation period** shall be for one month's service unless otherwise specified. No rebate, transfer or allowance will be made on any initial payment for service.

6. All accounts are due and payable when rendered, and payment should be made within 20 days from date of bill. If accounts on current month's bill remain unpaid after 20 days from date of bill, service may be discontinued. In case service is discontinued for non-payment of rental, 50c shall be charged for re-connection.

7. **Breakages and Damages.**—The subscriber shall be liable for all breakages or damage to the Telephone Equipment, except from unavoidable accidents.

8. The Department shall endeavor to render continuous service but shall not be liable for interruptions due to causes beyond the Department's control.

9. **Rebate for Loss of Service.**—No rebate for interruption to service can be made unless written notice is given to the Department immediately after such interruption has been repaired, and no rebate for interruptions will be allowed unless both "in" and "out" have been unavailable for a period of 36 hours.

10. **The Use of Profane or abusive language** over the Department's telephone equipment is prohibited. Persons using the equipment to the annoyance of other subscribers are liable to prosecution.

11. **The Minimum Charge for Business or Residence Service** is \$5.00 and \$2.50 respectively. These charges are made on periods of one day to one month.

12. The Department will not supply Residence or Domestic Service to any premises where any business for profit is carried on unless Commercial Service has already been contracted for. Premises is hereby defined as any building or portion thereof.

13. **Temporary Disconnection.**—Any subscriber, owing to the temporary closing of his residence, may have his service discontinued for a period not exceeding three months without cancelling contract or having telephone removed, if arranged and paid for at full rate in advance. This arrangement carries with it traffic and information service at a cost of \$1.20 over and above regular Telephone Rental.

14. If a Telephone installed for service at the Residence rate be used for the purpose of a business or profession, the Department may charge the business rate for such service without regard to the date to which the subscriber has paid for service at the Residence Rate. This also applies to subscribers, for Residence service only, who advertise their telephone number in connection with any business.

15. **Moves and Changes.**—The telephone is first located where subscriber directs and must not be moved or interfered with. When the subscriber desires to have the telephone moved to another location, notice must be given in writing at least two days before the move is required. All moves and changes shall be charged at standard rates, fixed from time to time.

16. **Notice of Discontinuance of Service** on the part of the subscriber is only valid when made in writing and such should be received by the Department at least six days before the end of any subsequent rental period.

17. **Telephone Numbers.**—A subscriber's telephone number is not a part of the application or contract for service and it may be changed by the Department at any time, where the requirements of the service so demand.

18. **Directories.**—The necessary issue of subscribers' telephone directories shall be published from time to time. These directories are at all times the property of the Department and are loaned to subscribers for their convenience and not as a part of any contract. No part of the advertisements printed upon the cover shall be defaced, covered up or concealed by encasing this directory in any additional cover or otherwise howsoever. The Department assumes no liability whatever because of errors or omissions in any copy of the book. Subscribers shall be supplied with one copy of each issue for each automatic telephone in service, additional copies shall be paid for by the subscriber. Each subscriber is allowed one listing in the directory under the alphabetical list. Each Business telephone is allowed one listing in the classified section. All other listings shall be charged for.

19. **Joint Users.**—A joint user is defined as one who has obtained permission from a subscriber for the use of his service. For such Business service the Department shall charge a monthly rental of \$1.65 payable in advance. For such Residence service the Department shall charge a monthly rental of 40c payable in advance. Joint users of telephone service will have similar privileges in the telephone directory as subscribers for direct line service. This service can only be cancelled at expiration of directory issue, viz., January 1st and July 1st.

20. **Extra Listings** are inserted in the directory under the telephone number of the direct line subscriber; such extra listings are allowed only where one interest is responsible, and are not allowed for separate companies or businesses.

21. **Subscribers** are supplied with all telephone apparatus necessary for good service, therefore the attachment of the various unauthorized devices offered for sale, which are supposed to eliminate noise, improve the transmission, supplant telephone directory, etc., cannot be permitted. All such devices are unnecessary and many are detrimental to the service. They are made simply to sell and with the completion of the sale the selling agent's interest ceases. Should unusual conditions necessitate the use of special apparatus, the Department will be glad to furnish same at reasonable rates.

22. **Discounts.**—Five per cent discount will be allowed on all bills for actual Telephone Rentals if paid on or before the

date shown on such bill. Any subscriber wishing to pay any number of months in advance will be allowed five per cent on all amounts so paid in advance. The department, however, will not undertake to bill subscribers for any amount in advance of the current month.

23. **Temporary Construction.**—Any applicant for service whose premises are more than 500 feet distant from that point where the Department's standard construction exists, will be required to pay the additional labor and construction costs involved in the installation of the service.

24. **Wiring in New Buildings.**—Where telephone service may be required in Blocks, Warehouses, and large Residences, the owner must have installed during the course of construction, special telephone conduits, and the necessary fittings satisfactory to the Department, at his expense. All other wiring charges will be borne by the Department.

25. **Labor Charges on Extensions.**—Where the cost of any extension to existing equipment is considered by the Superintendent of the Department to be excessive in comparison with rental returns, the installation cost will be charged to the Subscriber.

26. **Any violation** of any of the rules and regulations herein contained shall, at the option of the City Commissioners, cancel the Department's contract with subscriber.

Approved by City Council.

HOW TO USE THE DIAL TELEPHONE

1

OBTAIN THE CORRECT NUMBER FROM THE DIRECTORY

Before making a call, look in the latest issue of the directory for the telephone number you wish to call. If the number desired is not listed in the directory, dial 113 and ask the Information Operator who answers, for the number.

2

REMOVE THE RECEIVER

After you have the telephone number in mind, remove the receiver, being careful not to "jiggle" the hook.

3

HOW TO DIAL

The figures to be dialed must be dialed in the order in which they appear from left to right in the complete telephone number.

To dial any particular figure, place your finger firmly in the dial opening through which that figure is seen, and pull the dial around steadily in a clockwise direction, until your finger strikes the finger stop. Then remove your finger, and, without aiding or hindering, let the dial return to its normal position.

For example, if you wish to call 23114, it is necessary to dial 23114 in the following manner:

WRONG WAY TO DIAL

CORRECT WAY TO DIAL

1. Place your finger in the opening through which the figure 2 is seen.

2. Keeping the receiver off the hook, pull the dial around until your finger strikes the finger stop.

3. Withdraw your finger from the opening and without aiding or hindering let the dial return to its normal position.

4. Proceed in the same way (as in steps 1, 2 and 3 above), with the figures 3-1-1-4 in the order given.

If, before dialing is completed, it is found that an error has been made, or if the finger slips from the opening while dialing, the receiver should be hung up. After three seconds, remove the receiver and dial the complete number according to the foregoing instructions.

4

BUSY SIGNAL

The busy signal is a "buzz-buzz-buzz" sound heard when the line is in use. When you hear this signal hang up your receiver and call again later.

5

HANG UP THE RECEIVER WHEN THROUGH TALKING

When through talking hang up the receiver so that the equipment will be restored to normal for the next call.

Before making another call, the receiver should be left on the hook for at least three seconds, to give the equipment time to break the previous connection.

6

CALLS FROM COIN BOX TELEPHONES EQUIPPED WITH DIALS

In making a call from a coin box telephone equipped with a dial, remove the receiver from the hook, deposit a coin and then dial the desired number.

7

INCOMING CALLS

Incoming calls should be answered as promptly as possible by announcing your number or name.
