APPROVED BY CITY COUNCIL

CITY OF EDMONTON TELEPHONE DEPARTMENT

DIRECTORY NOTICES

This Directory is the property of the City Telephone System. Subscribers are requested to report promptly to the City Telephone System, in writing, any error which may appear in this Directory.

USE THE DIRECTORY, never try to remember a telephone number. To try to remember it is to begin to guess. It is all right if you do remember it, but if you have the least doubt about it, look it up and thus save time and trouble not only for yourself but for the one whom you carelessly disturb by guessing the wrong number.

Extra Listing Service. See Rule 20, Department Rules and Regulations. Additional copies of this issue, 75 cents; outside point \$1.00 mailed free.

INSTRUCTIONS RELATING TO AUTOMATIC TELEPHONES IMPORTANT

1. REMOVE RECEIVER from hook before operating dial.
2. BRING THE FINGER squarely to the finger stop.
3. DO NOT force the dial back; remove your finger and let it run back itself.
4. ALWAYS HANG UP RECEIVER before making a second call.
5. HANG RECEIVER ON HOOK (SMALL END UP) when through talking. Otherwise no one can call you.
6. DO NOT JIGGLE THE RECEIVER HOOK.
7. BUSY BUZZ sound in your ear means the line you called for is busy.
8. EXTENSION PHONES. When using always listen and make sure that line is not already in use. If connection is accidentally broken it should be restored by calling party.

INFORMATION AND REPAIR DEPARTMENTS

Information regarding subscribers whose numbers do not appear in this Directory, or whose Name or Street address has been changed **Call Information No. 113.**

The City of Edmonton Telephone System

RULES AND REGULATIONS

The following Rules and Regulations apply only to subscribers and other persons using the facilities of the City of Edmonton Telephone System (hereinafter referred to as "the System") and do not apply in connection with the various connecting companies whose listings appear elsewhere in this directory.

CONDITIONS OF SERVICE

1. **Telephone Instruments, Equipment and Connecting Lines** are furnished to subscribers for use in accordance with Rules and Regulations as prescribed by the System from time to time and are to be used only by the subscribers and persons associated with them.

2. **Telephone Service** will not be furnished where the equipment is accessible to the general public. Where the traffic originated by the general public on any telephone exceeds that of the subscriber the System shall have the right to change the location of the equipment without notice.

3. **Telephone Equipment Furnished by the System** must not be used for transmitting, receiving or delivering any message or communication for which a consideration has been or is to be paid to any party other than the System except as permitted by the System.

4. **Subscribers Are Not Permitted** to transfer the telephone number assigned to them, their service, or their contract to any other party unless arrangements in writing are made in advance with the System.

5. If a **Telephone Installed for Service** at the residence rate is used for purpose of a business, profession or other than for the usual requirements of a residence, the System may charge the business rate for such service without regard to the date to which the subscriber has paid for service at the residence rate.

6. **The Use of Any of the System's Facilities** in connection with gambling or any other practice contrary to law is forbidden.

7. **The Use of Obscene, Profane or Abusive Language** while using the telephone is strictly forbidden and service to persons using the telephone to the annoyance of other subscribers may be discontinued.

8. **The Instruments, Equipment and Connecting Lines** by means of which telephone service is furnished shall remain the property of the System and the subscriber shall not remove, alter or make any attachment thereto. The subscriber agrees to compensate the System on demand for any damage, loss or destruction of the System's instruments, equipment or wires whilst in or upon the premises of the subscriber except where such damage, etc., in the opinion of the System occurs due to unavoidable accidents.

9. **The System Shall Endeavor to Render Continuous Service** but shall not be liable for interruptions to service due to causes beyond the control of the System. No rebate for interrupted service will be made unless written notice is given to the System immediately after such an interruption has been repaired. No rebate for interrupted service will be allowed unless both "in" and "out" service have been unavailable for a minimum of thirty-six hours.

INSTALLATION, MOVING AND EXTRA CONSTRUCTION

10. **Telephone Instruments and Equipment** are located initially where the subscriber directs, subject to the approval of the System, and must not be moved or otherwise interfered with.

11. **In Buildings Requiring Special Cables and Wiring** to furnish telephone service, the owner of the building, at his own expense, must arrange for terminal boxes, conduits and special fittings for the distribution cables and wires in accordance with the specifications of the System.

12. **Any Applicant for Telephone Service** whose premises are more than 500 feet distant from the nearest point where the System's standard facilities exist will be required to pay the additional labor and construction costs involved in the installation of the service.

13. **When the Subscriber** wishes to have telephone instruments or equipment moved to another location, notice must

be given in writing at least ten days before the move is to take place. Charges for moving and other changes to telephone instruments or equipment are published in the Rate Schedule of the System.

14. **Where the Cost of Installation** of an extension existing equipment is considered by the Superintendent of the System to be excessive in comparison with rental returns, the installation cost will be charged to the subscriber.

TELEPHONE NUMBERS

15. **A Subscriber Shall Have No Property Right** in the telephone number assigned to him and shall have no right of continuance of service through any particular central office or exchange. The System shall have the right to change the subscriber's telephone number or central office prefix, both, whenever necessary for the improvement of service.

INITIAL CONTRACT PERIODS

16. **The Initial Contract Period** for all services and facilities furnished by the System shall be one month, except as stated below and as may be specifically stated in the Rate Schedule of the System.

17. **The Initial Contract Period for Private Branch Exchanges** and private automatic branch exchanges shall be at the discretion of the System. Where the expansion of a private branch exchange or private automatic branch exchange entails large expenditures, the additional equipment involved will be installed subject to a further initial contract period, also at the discretion of the System.

18. **The Initial Contract Period for Directory Listings** for joint user service where the listing actually appears in the directory shall be the directory period.

19. **No Rebate, Transfer or Allowance** will be made on any initial payment for service.

PAYMENT FOR SERVICE

20. **Rental Charges for Telephone Service** are payable monthly in advance at rates shown in the Rate Schedule of the System.

21. **All Accounts Are Due** and payable when rendered and payment should be made within twenty days from the date of the bill. When accounts remain outstanding after twenty days from the date of the bill, service may be discontinued. When service has been discontinued because of non-payment of an account, a re-connection fee may be levied as shown in the System's Rate Schedule.

TEMPORARY SUSPENSION OF SERVICE

22. **A Subscriber** may have his telephone service temporarily discontinued without cancelling his contract or having his telephone removed by requesting a suspension of service subject to the following conditions.

- (a) Arrangements for temporary suspension of service must be made in writing in advance, and the service must be paid for at the full rate in advance.
- (b) A special interception and information service is provided for all lines on which service is temporarily suspended. The charge for this service is shown in the System's Rate Schedule, and is levied in addition to the regular service rental referred to above.

JOINT USER SERVICE

23. **Joint Users Are Defined** as those who have obtained permission from subscribers to make use of their telephone facilities. Joint users will have telephone directory privileges similar to those accorded subscribers having direct line service. Monthly rental charges for business and residential joint user telephone service are shown in the System's Rate Schedule. The cancellation of joint user service where listings have ap-

peared in the directory may become effective only at the expiration of the current directory issue.

EXTRA LISTINGS

24. When a Subscriber for Business Service is carrying on a business under more than one name, extra listings may be requested for insertion in the alphabetical and classified sections of the directory at monthly charges shown in the Rate Schedule of the System. Extra listings are permitted only where one business enterprise or interest is involved, and are not allowed for separate companies or businesses.

RECORDING OF TELEPHONE CONVERSATIONS

25. A Short "Beep" Tone heard over the telephone at intervals of about fifteen seconds during a conversation indicates that the person to whom you are talking is recording the conversation by means of an electrical recording machine connected to the telephone line. The signal is produced automatically by a device which connects the recorder to the telephone line and is provided by the System for your protection.

26. If You Do Not Want Your Conversation Recorded ask the person to whom you are talking to disconnect the recorder. When the recorder is not connected, the "beep" tone is not heard.

27. The Use of a Recorder on telephone lines without the tone generating connection unit is contrary to the rules and regulations of the System.

ATTACHMENTS TO TELEPHONES

28. Subscribers Are Supplied with all telephone apparatus necessary for good service. Therefore, the attachment of the various devices offered for sale cannot be permitted. All such devices which are supposed to eliminate noise, improve the transmission, supplant the telephone directory, etc., are unnecessary and may be detrimental to good telephone service. They are made simply to sell and with the completion of the

sale the selling agent's interest ceases. Where unusual conditions necessitate the use of special apparatus the System will be pleased to furnish that equipment at reasonable rates.

TELEPHONE DIRECTORIES

29. Telephone Directories shall be published from time to time at the discretion of the System. These directories remain the property of the System and are loaned to subscribers as an aid to good telephone service. Telephone directories are copyrighted publications and their contents must not be reproduced without permission.

30. Subscribers Shall Receive Without Charge one copy of each directory issued for each automatic telephone in service. Additional copies will be supplied as requested in writing, at the rate shown in the Rate Schedule of the System.

31. For Each Individual Exchange Line, one single-line entry in the alphabetical section of the directory is provided each subscriber without charge. Each business-rate subscriber is entitled, in addition to the above, to one single-line entry in the classified section without charge. All advertising and additional listings shall be charged for in accordance with the Rate Schedule of the System.

32. Errors or Omissions which may appear in this directory should be reported to the System in writing.

33. Every Precaution is Taken to prevent errors or omissions in directories but the System will assume no liability for damages caused to subscribers by such errors or omissions in the preparation and printing of this directory. The System will not take part in any controversy arising between subscribers as a result of listings published in this directory.

VIOLATION OF RULES AND REGULATIONS

34. Violation of Any of the Rules and Regulations stated above shall, at the option of the City Commissioners, cancel the System's contract with the subscriber.

Approved by City Council, July, 1953.

— I M P O R T A N T —

Your telephone bill must accompany all payments
Our system of accounting makes this necessary

HOW TO USE THE DIAL TELEPHONE

WRONG WAY TO DIAL

CORRECT WAY TO DIAL

1

OBTAIN THE CORRECT NUMBER FROM THE DIRECTORY

Before making a call, look in the latest issue of the directory for the telephone number you wish to call. If the number desired is not listed in the directory, dial 113 and ask the Information Operator who answers, for the number.

2

DIAL TONE

Remove receiver or handset before operating dial. Listen for Dial Tone, a steady humming sound, and when you hear it, dial the number you are calling. If you do not hear the dial tone, or if someone else is using the line hang up and call again later.

3

HOW TO DIAL

The figures to be dialed must be dialed in the order in which they appear from left to right in the complete telephone number.

To dial any particular figure, place your finger firmly in the dial opening through which that figure is seen, and pull the dial around steadily in a clockwise direction until your finger strikes the finger stop. Then remove your finger, and, without aiding or hindering, let the dial return to its normal position.

If, before dialing is completed, it is found that an error has been made, or if the finger slips from the

opening while dialing, the receiver should be hung up. After three seconds, remove the receiver and dial the complete number according to the foregoing instructions.

4

BUSY SIGNAL

The busy signal is a "buzz-buzz-buzz" sound heard when the line is in use. When you hear this signal hang up your receiver and call again later.

5

HANG UP THE RECEIVER WHEN THROUGH TALKING

When through talking hang up the receiver so that the equipment will be restored to normal for the next call.

Before making another call, the receiver should be left on the hook for at least three seconds, to give the equipment time to break the previous connection.

6

CALLS FROM COIN BOX TELEPHONES EQUIPPED WITH DIALS

In making a call from a coin box telephone equipped with a dial, remove the receiver from the hook, deposit a coin and then dial the desired number.

7

INCOMING CALLS

Incoming calls should be answered as promptly as possible by announcing your number or name.

Information and Repair Department

For information regarding subscribers whose numbers do not appear in this Directory, or whose Name or Street address has been changed, Call Information 113.

Information operators are not required to supply information already contained in this Directory to subscribers, who are supplied with a copy.

Interruptions or complaints re service, report at once to Repair Clerk, No. 112.

For information regarding Rural Subscribers Call No. 113.
