

IT'S EASY TO DIAL

FIRST

CONSULT YOUR DIRECTORY

If the number is not listed call Information (Dial O Operator) for the number and jot it down for reference.

SECOND

LISTEN FOR DIAL TONE — a steady humming tone, indicating that the equipment is ready for your call. If you do not hear the dial tone within a reasonable time, hang up, wait for a few seconds and try again.

THIRD

DIAL THE FIRST THREE NUMERALS (as 599), then the four numerals of the number. For example, to dial 599-3580 dial 5-9-9-3-5-8-0. For each numeral turn the dial all the way around to the finger stop, then release the dial and allow it to return without interference. If your finger slips while dialing or you make an error, hang up, wait a moment, listen for the dial tone and dial again.

FOURTH

AFTER YOU DIAL

1. Listen for Signals. RINGING—soft intermittent bur-r-r-r, BUSY—buzz-buzz-buzz.
2. Wait at least a minute for called party to answer his telephone.

How to Dial Seven Numbers

Telephone numbers (7 numerals) will consist of:

- (a) Three numerals—like 599
- (b) The subscriber number—four more numerals, like 3580

To dial the number 599-3580 you dial like this

Lift the receiver—wait for the steady hum-m-m-m- of the dial tone—then

First dial the numeral

5

then the numeral

9

then the numeral

9

then the numeral

3

then the numeral

5

then the numeral

8

then the numeral

0

(not the letter O)

It's as easy as that.

If you give this number to the operator, or repeat it to a friend, the easy way to say it is to break it up like this:

"Five-nine-nine . . . three-five . . . eight-zero".
This is the best way to say it—to understand it—to remember it.

ST. ALBERT
