

The Conservation of Telephone Service Has Been Ordered

To release aluminum, zinc, copper, rubber and other essential war materials to Canada's Fighting Forces . . . the telephone companies of Canada are now operating under Dominion Government orders restricting the installation and replacement of certain Telephone equipment.

This may mean all or part of your application for service may be delayed or even refused. Later it may mean that your present residence service may be curtailed should the telephone equipment be required for essential war service.

These restrictions will affect many telephone users, but we shall do everything in our power to provide as adequate service as possible under war conditions.

If you are considering installing a telephone or moving your present equipment, please inquire at the telephone business office, or call 21121 before making your decision.
