CLEANING FURNITURE

To remove accumulations of old, discolored wax on furniture, rub it with a piece of terrycloth toweling wrung out of a hot solution of sal soda concentrated. Use about three table-spoons of the sal to a quart of water. Rinse, wipe, and let thoroughly dry before rewaxing.

USING MORE SALAD OIL

Canadians are consuming more cooking and salad oils than they were 20 years ago, and showing also a preference for vegetable oils. One reason — increasing popularity of salads in the diet.

EASE YOUR EYES

Seamstresses should take a few minutes off each half hour for the sake of their eyes. Close work over a long period of time can put strain on eyes and one way to lessen the fatigue is to glance off into the distance for a moment every now and then.

Good rules in dialing:
Wait for the dial tone ...
Dial accurately, without
forcing ... Let the dial
return naturally to start-
ing position ... If you
encounter a "busy," wait
a reasonable time and try
again.

Behind on orders? Let the handy Yellow Pages introduce the suppliers you need. It's fast. It's convenient. Wise buyers say there's nothing like the Yellow Pages of your telephone book for getting in touch with almost everyone around who sells things, fixes things, does things. Try them once . . . you'll use them often.

MARBLE STAINS

Most stains on marble are removed best with the application of a poultice. To make a poultice, soak a piece of white blotting paper, white napkin, white cleansing tissue, or commercial whitening in one of the following solutions: for organic stains, use ammonia or hydrogen peroxide in hair bleach strength; for oily stains, an amyl acetate or acetone solvent.

"TAN YOUR HIDE?"

Tanners use the term "hide" when referring to a whole pelt from one of the larger animals—cattle, horse and so on. They use the term "skin" when referring to the pelt from a young or small animal—sheep, calf, pig.

PAINTER'S TIP

Professional painters say the correct way to hold a brush is to grasp it comfortably near the handle base. Don't bear down on the brush. Just exert enough pressure to make the bristles flex slightly toward the tip.
