MORE INSTANT COFFEE USED

Canadians are drinking less coffee, or at least using fewer beans, than in the late 1940's. Part of the drop is due to introduction of instant coffee during the 1950's. Instant products now make up nearly one-fifth of total coffee consumption.

They're arranged
alphabetically.

FRONT COVER STORY

RED-EYED VIREO: The Red-eyed Vireo is a common summer resident in the Northern District that is more often heard than seen. Its presence is usually made known by the pleasant day-long song which sounds like a question followed by an answer. It is most commonly associated with poplar groves, where it builds a nest in the crotch of a shrub or low tree branch.
