MARBLE STAINS

Most stains on marble are removed best with the application of a poultice. To make a poultice, soak a piece of white blotting paper, white napkin, white cleansing tissue, or commercial whiting in one of the following solutions: for organic stains, use ammonia or hydrogen peroxide in hair bleach strength; for oily stains, an amyl acetate or acetone solvent.

AVOID GOLD

When buying a carpet avoid gold as a solid color, because gold cut pile shows foot tracks, litter, dust and fuzz and requires much more care.
