

THE YELLOW PAGES EXPLAINED

The headings in these Yellow Pages are arranged alphabetically. Business and professional people are listed under the heading which best describes their line of business: Services they perform, or the Products they sell.

Many professions and businesses can be known by more than one finding or descriptive word, e.g., **Hairdressers—Ladies'** and **Beauty Parlors**. In these cases, one of the words (or terms) is used as a classified heading under which businesses are listed, and the other is used as a cross reference heading to direct users to the proper finding word, for example:

Hairdressers—Ladies'

See Beauty Parlors

There are also heading classifications, which, though closely related, are not identical in meaning, and are indexed separately, e.g., **Lumber—Retail** and **Lumber—Wholesale**.

All listings and information space which appear in columns under headings are arranged in alphabetical order. Products and Services carrying identifying brand names, many with an emblem or insignia, are arranged in alphabetical order by the brand name at the specific product or service heading. Display advertising is compiled in relation to the service or product heading.
