FLAT BACON

Does your bacon curl up and shrink in the pan? Try this when frying bacon. Fry in regular frying pan but place bottom of another pan directly over the bacon itself — then put it over a low flame. Result — nice flat pieces of bacon.

CHEESE TIP

When cooking with cheese, keep the heat low to let cheese melt completely and spread through the whole dish. Cooking at high heat makes cheese tough and stringy.

KNOW YOUR TEA?

A tea taster may be able to identify as many as 1,500 different teas. By examining a dry leaf, he can tell where the tea was grown, sometimes even the estate it came from, what time of year it was plucked, its probable taste and cost.

EASE YOUR EYES

Seamstresses should take a few min-
utes off each half hour for the sake
of their eyes. Close work over a long
period of time can put strain on eyes
and one way to lessen the fatigue is
to glance off into the distance for a
moment every now and then.
