CARE OF IRON

The bottom sole plate of an old iron can be renewed to a glistening, glasslike finish if you'll rub it with some slightly dampened salt and a crumpled piece of paper. This treatment not only smooths scratches, but removes corrosion and starch from the bottom of the iron.

USING MORE SALAD OIL

Canadians are consuming more cooking and salad oils than they were 20 years ago, and showing also a preference for vegetable oils. One reason — increasing popularity of salads in the diet.

FURNITURE STAIN REMOVER

If you have a piece of heat-stained furniture, apply a thin paste of salt and salad oil. Let stand for an hour, then remove. Unless the stain has really penetrated the grain of the wood, it will respond to this treatment.
